Dear Dr's,

I am happy to inform you that DG, ICMR, has desired that the ICMR Ethical Guidelines for Biomedical Research on Human Participants, 2006 may be updated and revised and the revised version is proposed to be brought out by mid of next year. An advisory group has been formulated with Dr Vasantha Muthuswamy and Dr SD Seth as Co-Chairs to steer the process. The advisory Group has suggested your name to be part of the subcommittee which shall be involved in preparing the write up as per following details. The updated details of the group may please be noted.

Subcommittee 5.0 Vulnerability

1. Dr Vasantha Muthuswamy - Coordinator
2. Dr. Sandeep Bavdekar- Member
3. Dr. Smita Deshpande- Member
4. Dr. Poonam Natarajan- Member
5. Dr. Urmila Thatte- Member
6. Dr. N. Sarojini- Member

Kindly note that the Sub-committee shall be meeting on several occasions in person or through video conferencing or working through emails in order to finalise the write up in a time bound manner and will be required to submit the zero draft to ICMR by 15th Dec, 2015.

Thereafter there would be a half a day in-person meeting at ICMR Headquarters sometime between 21-23rd Dec 2015 where the members of the subcommittees will be able to meet and discuss the details. Following this between Jan – March, 2016 the Sub-committees will be required to work on the suggestions and finalise the write up on the topic as stated above.

The details regarding the format to be used for the write up and other relevant information will be shared with you by the Coordinator. Your kind contribution for this important cause of promoting research ethics will be deeply appreciated and acknowledged.

Please provide us your updated contact details (email id, Mobile no., Phone no. Landline, Office no. & Address)

With kind regards,

Roli

Dear Roli

Thank you for your email and to the ICMR for inviting me to be part of the sub-committee. I am happy to accept and to contribute to this important process of updating and revising the ICMR Ethical Guidelines for Biomedical Research on Human Participants, 2006.
